

WHY IS IT BETTER IN LIQUID?

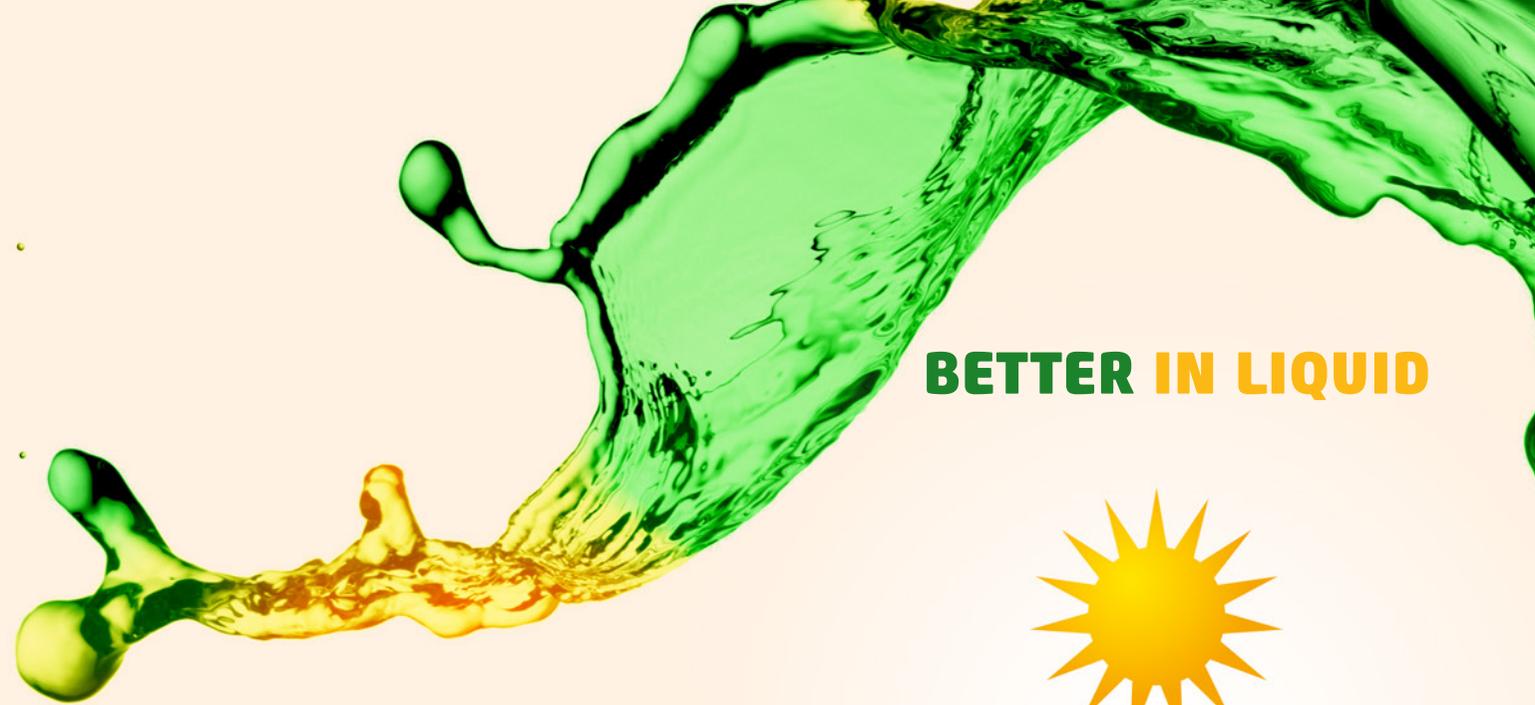

Joyly products liquid form creates the appropriate conditions for LIVE AND ACTIVE probiotic bacteria cultures to preserve them natural, high vitality and activity. It helps also maintain the ability to colonize the intestinal immediately, as well to produce biologically active substances – BIOFUNCTIONAL POSTBIOTICS.

The expert gives advice...

Intestinal microbial balance is crucial for maintaining a good health. Probiotic prevention, as a part of everyone's daily diet, helps to maintain proper body functions and prevents many illnesses, not just the gastrointestinal diseases.

microbiologist, Ph.D. Eng. Dorota Samul

WHAT ARE PROBIOTICS?

Probiotics are specially selected bacterial or yeasts strains, that given in sufficient quantity have a beneficial clinical effect on health.

Probiotics have a significant influence on the healthy gut microbiota growth and affect the body's functions positively. Regular probiotics consumption prevents many diseases effectively, and also in specific cases supports their treatment.

The source of probiotics are medicinal products, dietary supplements and functional food. Liquid probiotic products are the most natural and beneficial form of probiotic bacteria administration for our organism.

WHAT ARE THE BENEFITS OF PROBIOTICS?

- maintaining the intestinal microbial balance
- prevention of diarrhea
- helping to regulate the digestive processes
- enhancing immune system
- maintaining the psychophysical balance

WHO ARE PROBIOTICS FOR?

Our probiotics are dedicated to adults, seniors, adolescents and children aged over 3. They can be consumed by diabetics, in lactose-free and gluten-free diet.

PROBIOTIC PREVENTION

JOYLY concentrates and drinks are recommended to consume as a part of the daily diet specially selected live and active probiotic bacterial strains. Contain an innovative composition of specially selected probiotic bacterial strains, together with their biofunctional postbiotics and additives of plants fermentation extracts. Concentrates are available in five flavor varieties - forest fruits, mint, hawthorn, topinambur and hop. Drinks are available in two flavors - mint and forest fruits and in two varieties - sweet (sweetened with xylitol) and classic.

PROBIOTIC SUPPLEMENTATION

Probiotic Joyly in liquid form contains biofunctional postbiotics of live and active probiotic bacterial strains, including organic acids and vitamins. It is recommended to consume in order to rebuild the intestinal microbiome, especially in dysbiosis state.

Joyly Concentrates

600 million bacteria in daily intake

Min. 2×10^9 cfu/ml. Bacterial strains: *Lactobacillus rhamnosus* GG (ATCC 53103), *L. rhamnosus* LR 04 (DSM 16605), *L. rhamnosus* LR 05 (DSM 19739), *L. acidophilus* LA 1 (LMG P-21904), *L. delbrueckii ssp. bulgaricus* LB 2 (LMG P- 21905), *L. casei* 101/37 (LMG P- 17504), *L. plantarum* LP 02 (LMG P- 21020), *L. plantarum* LP 01 (LMG P-21021), *L. fermentum* LF2 (LMG 27299), *Bifidobacterium breve* BL 10 (LMG P-17500), *B. breve* Bbr 8 (LMG P-17501), *B. longum* BL 03 (DSM 16603), *B. animalis ssp. lactis* Bi 1 (LMG P- 17502), *Streptococcus thermophilus* Z 57 (LMG P- 21908), *S. thermophilus* 9 Y (LMG P- 17225).

Probiotic drink concentrate. Contains an extract of fermented plant ingredients, mainly hop, which has mildly calming properties, especially in states of increased nervous tension. Hop contains essential oils, flavonoids, phenolic acids and tannins.

Probiotic drink concentrate. Contains an extract of fermented plant ingredients, mainly hawthorn, which has protective properties on the cardiovascular system. Hawthorn contains many flavonoids, saponins, tannins and acetylcholine.

Probiotic drink concentrate. Contains an extract of fermented plant ingredients, mainly topinambur tubers, which have prebiotic properties. Topinambur tubers contain inulin and fructo-oligosaccharides with prebiotic properties, as well as minerals, essential amino acids, vitamins, flavonoids and phytosterols.

Probiotic drink concentrate. Contains an extract of fermented plant ingredients, mainly blackberry, blackcurrant and wild strawberry, which have the immune system boosting properties. Forest fruits contain vitamin C, organic acids and many antioxidant compounds.

Probiotic drink concentrate. Contains an extract of fermented plant ingredients, mainly mint, which has a relaxant effect on the smooth muscle of the gastrointestinal tract, especially in indigestion. Mint contains menthol, flavonoids and antiseptic compounds.

Joyly Probiotic drinks

400 million bacteria in daily intake

Min. 3.2×10^8 cfu/ml. Bacterial strains: *Lactobacillus rhamnosus* GG (ATCC 53103), *L. rhamnosus* LR 04 (DSM 16605), *L. rhamnosus* LR 05 (DSM 19739), *L. acidophilus* LA 1 (LMG P-21904), *L. delbrueckii ssp. bulgaricus* LB 2 (LMG P- 21905), *L. casei* 101/37 (LMG P- 17504), *L. plantarum* LP 02 (LMG P- 21020), *L. plantarum* LP 01 (LMG P-21021), *L. fermentum* LF2 (LMG 27299), *Bifidobacterium breve* BL 10 (LMG P- 17500), *B. breve* Bbr 8 (LMG P-17501), *B. longum* BL 03 (DSM 16603), *B. animalis ssp. lactis* Bi 1 (LMG P- 17502), *Streptococcus thermophilus* Z 57 (LMG P- 21908), *S. thermophilus* 9 Y (LMG P- 17225).

Probiotic drink. Contains an extract of fermented plant ingredients, mainly mint, which has a relaxant effect on the smooth muscle of the gastrointestinal tract, especially in indigestion. Mint contains menthol, flavonoids and antiseptic compounds.

Probiotic drink. Contains an extract of fermented plant ingredients, mainly blackberry, blackcurrant and wild strawberry, which have the immune system boosting properties. Forest fruits contain vitamin C, organic acids and many antioxidant compounds.

Joyly Probiotic

1.8 billion bacteria in daily intake

Min. 6×10^8 cfu/ml. Bacterial strains: *Lactobacillus rhamnosus* GG (ATCC 53103), *L. rhamnosus* LR 04 (DSM 16605), *L. rhamnosus* ATB-LRS905 (LMG 25626), *L. acidophilus* LA 02 (DSM 21717), *L. plantarum* LP 09 (DSM 25710), *L. plantarum* ATB-LPM907 (LMG 26655), *L. paracasei* LPC 00 (LMG P-21380), *Bifidobacterium breve* BR 03 (DSM 16604), *B. breve* ATB-BBE804 (LMG 13208), *B. animalis ssp. lactis* BS 01 (LMG P-21384), *B. longum* ATB-BLM802 (LMG 26652), *Streptococcus thermophilus* FP 4 (DSM 18616).

Dietary supplement. Contains a liquid blend of live and active probiotic bacteria cultures. Especially recommended to consume in order to restore the intestinal microbiome after antibiotics use, in intestinal permeability and to support the immunity.

Maintaining good health requires a balanced diet and a healthy lifestyle. Dietary supplement can not be used as a substitute (replacement) for a varied diet. The recommended daily intake should not be exceeded. Dietary supplement should be stored out of reach of small children.

Did you know?

More than 10 bioactive compounds have been found in JOYLY probiotic products. They have bactericidal and fungicidal properties.
